

Tau Chemicals Inc

MACROLUB 312

TECHNICAL DATA SHEET

Description:

Lubricant of combination based on long-chain fatty acids esters.

Properties:

Cream color waxy flakes, free of suspended strange matter.

External lubricant with optimal mold release effect. It's specially appropriate for manufacturing of highly transparent sheets

Application:

Macrolub 312 is used for the elaboration of rigid PVC, this product is special for manufacturing of calendered rigid PVC sheets, it can be used in manufacturing of bottles and demijohns where high transparency is required. The very good thermal stability and low volatility of this kind of esters, make it an excellent process agent for thermoplastics at high temperature.

Dosage:

0.4 to 0.8 P.H.R.

Packing:

Kraft paper sacks / 25 Kg.

Storage:

Store in cool place, the sacks must be kept hermetically closed.
