

Tau Chemicals Inc

MACROLUB 330

TECHNICAL DATA SHEET

Description:

Lubricant of combination based on long-chain fatty acids esters.

Properties:

Cream color waxy flakes, free of suspended strange matter.
Internal lubricant.
Improvement of flow properties.
Appropriate for parts that require optimum transparency.
Synergistic effect, particularly with tin compounds.

Application:

Macrolub 330 for its action properties can be used in:

- Elaboration of special rigid PVC for manufacturing hollow parts by extrusion blow molding, where high transparency is required.
- Lubricant, mold release agent and corrosion inhibitor.
- In the textile industry is used as an aid in the emulsification of waxes and oils.
- In PVC is an excellent internal lubricant and helps to dispersion of pigments.

Dosage:

0.8 to 1.5 P.H.R.

Packing:

Kraft paper sacks / 25 Kg.

Storage:

Store in cool and well ventilated place.
