

Tau Chemicals Inc

MACROLUB 715

TECHNICAL DATA SHEET

Description:

Complex ester of high molecular weight and polyfunctional. It complies with FDA regulations:
CFR: 177-2420

Properties:

Viscous clear liquid, lightly yellow to amber color with slightly fatty odor.
-External lubricant with optimal mold release effect.
-Compared with Macrolub-310, the dosage may be lower.
-Very good compatibility in rigid and flexible PVC.

Application:

-Manufacture of rigid PVC.
-Manufacture of flexible PVC.
-Manufacture of PVC plastisols.

Packing:

0.2 to 0.6 PHR for rigid and flexible PVC.

Stabilization:

Compatible with all common stabilizers in the market.

Packing:

Drum / 200 Kg.

Storage:

Store in cool and well ventilated place.
