

Tau Chemicals Inc

MACROLUB 780

TECHNICAL DATA SHEET

Description:

Lubricant of combination based on long-chain fatty acids esters and metallic soaps with FDA approval.

Properties:

White to lightly cream flakes, free of strange particles.

- External lubricant with optimal mold release effect.
- Improves the stability to long-term in processes stabilized with Ca-Zn
- Improves efficiency in production machines.

Application:

Macrolub 780 is used for production of rigid PVC, this product is special for manufacture of bottles and films with Ca-Zn stabilizers.

The very good thermal stability and low volatility of this kind of esters, make it an excellent process agent for thermoplastic at high temperature.

Packing:

Kraft paper sacks / 25 Kg.

Storage:

Store in cool place, the sacks must be kept hermetically closed.
