## **MACROLUB PL**

### **TECHNICAL DATA SHEET**

#### **Description:**

Internal / external lubricant of combination based on long-chain fatty acids esters.

#### **Properties:**

White to lightly cream flakes, free of strange particles.  
Internal / external lubricant with optimal mold release effect. It's specially suitable for injection processes.

#### **Application:**

Macrolub PL is used as an internal lubricant for production of rigid PVC, this product is special for the manufacture of rigid PVC connections and hollow items by injection.  
The very good thermal stability and low volatility of this kind of esters, make it an excellent process agent for thermoplastic at high temperature.

#### **Packing:**

Kraft paper sacks / 25 Kg.

#### **Storage:**

Store in cool place, the sacks must be kept hermetically closed.
