

Tau Chemicals Inc

GLANAPON DA 203

- 1. Purpose:** Defoamer for the yeast fermentation process
- 2. Chemical composition:** Mixture of nonionic surface active substances
- 3. Properties:**

appearance:	clear liquid
active substance:	100%
density (20°C):	1,02 ± 0,02 g/cm ³
pH-value (10%):	6,0 - 8,0
viscosity (25° C):	app. 300 mm ² /s
- 4. Point of addition:** automatic dosage equipment
- 5. Mode of addition:** undiluted with a suitable dosing pump
- 6. Quantity used:** has to be found out by trials
- 7. Storage stability:** at least. 24 months in closed original containers at room temperature under proper storage conditions. Protect from direct sunlight.
- 8. Additional:** GLANAPON DA 203 is appropriated for production of food. It is in accordance with "Food and Drug Administration of USA", § 173.340 and § 172.808.

All results have been obtained from trials in our laboratory and plant. In the light of changing conditions, they can serve only as a guide, and are therefore offered without obligation. We ask that the possible rights of third parties are observed.
